# SHAMMAS CB

## Artificial Intelligence & Machine Learning Developer

shammascb41@gmail.com | +91 7306158143 | Thrissur, Kerala, India | LinkedIn | GitHub

## PROFESSIONAL SUMMARY

Driven Artificial Intelligence & Machine Learning Developer (BCA '26, Bangalore University) specializing in Natural Language Processing (NLP), Machine Learning algorithms, and Computer Vision. Skilled in Python, C, Java, PyTorch, Scikit-Learn, and SQL with hands-on experience building production-grade AI solutions including an end-to-end AI Resume Analyzer.

## EDUCATION

**Bangalore University** 2023 – 2026
Bachelor of Computer Applications (BCA) in Computer Applications & Artificial Intelligence Bangalore, India

- Honors: First Class Distinction | Specialization in AI & Data Science

## TECHNICAL SKILLS

**Programming Languages:** Python, C, Java, SQL, HTML5, CSS3

**AI & Machine Learning:** Natural Language Processing (NLP), Supervised/Unsupervised ML, Scikit-Learn, PyTorch, OpenCV, Pandas, NumPy

**Frameworks & Developer Tools:** Flask, Streamlit, FastAPI, Git & GitHub, Jupyter Notebooks, VS Code, MySQL

## TECHNICAL EXPERIENCE & PROJECTS

**Lead AI Systems Developer (Academic & Open-Source)** 2024 – Present
AI & Machine Learning Projects Thrissur, Kerala

- Architected an automated NLP parsing engine for resume-job description alignment, improving keyword extraction accuracy by 35% using Cosine Similarity & TF-IDF vectorization.
- Trained and evaluated 6+ machine learning algorithms (Random Forest, SVM, XGBoost) on multi-dimensional datasets using Scikit-Learn, achieving 94% classification precision.
- Built interactive real-time web inference dashboards using Streamlit, Python, and Flask, serving fast prediction endpoints for data analysis.
- Implemented Git CI/CD version control workflows and modular code structures following PEP8 software development standards.

**AI Resume Analyzer & NLP Parser** [Python | NLP | Scikit-Learn | Streamlit | PyPDF2]
Engineered an intelligent NLP web platform that parses PDF/DOCX resumes, extracts key candidate skills, and calculates ATS compatibility scores against job specs.

**Real-Time Object Detection System** [Python | PyTorch | OpenCV | CUDA]
Developed a low-latency computer vision pipeline using PyTorch & OpenCV for real-time video stream classification, processing 30+ FPS.

**Customer Sentiment Classifier** [Python | NLTK | Scikit-Learn | Flask]
Trained a Naive Bayes & Logistic Regression text classification pipeline, evaluating user feedback sentiment with a 93% F1-score.

## CERTIFICATIONS

**Python for Data Science & AI** — IBM / Coursera (2024)

**Machine Learning & Neural Networks** — Udemy Certified (2024)
